**INSPIRE-100** is a patent-pending ventilator design tailored for adult patients, providing comprehensive ventilatory support from initiation to weaning.

It features a user-friendly Human-Machine Interface with a clear front panel and advanced remote monitoring capabilities accessible via laptops, desktops, tablets, or mobile devices.

This device is particularly suited for facilities without access to compressed gas or oxygen pipelines and is built to withstand challenging environmental conditions.

**INSPIRE-100** supports four commonly used ventilation modes: CMV, ACV, SIMV, and PSV. It offers a full range of breath parameters across all modes, ensuring complete assistance for patient-initiated breathing.

**Unmatched Affordability**

**Unmatched Remote Monitoring via WiFi**

**Unmatched Ease-of-use**

**Works without Compressed Air Pipeline**

**Works with Oxygen Cylinder or Concentrator**

**Field Upgradeable**

**Complete Set of mainstream Parameters**
